

ALL ABOUT DATA SCIENCE STUDENTS

How do they spend their time?

Time Spent By Students on Varying Activities

Time Spent By The Average Person on Varying Activities

Data from: https://www.bls.gov/tus/datafiles_0315.htm

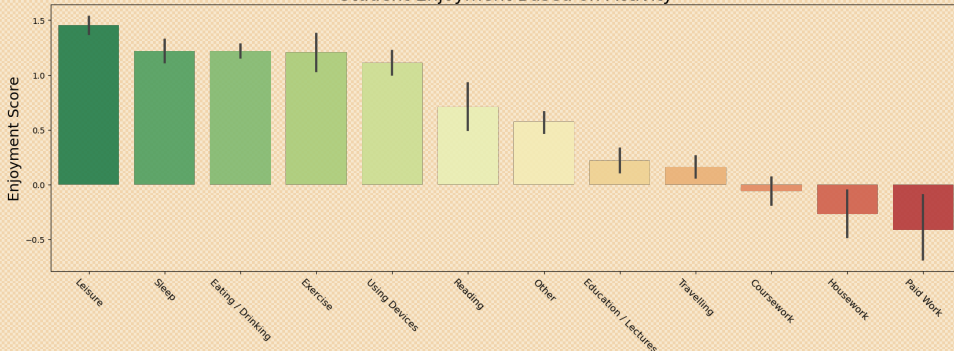

Just like the average person, a typical data science student spends majority of their day sleeping, working and doing their studies!

What do they enjoy doing the most?

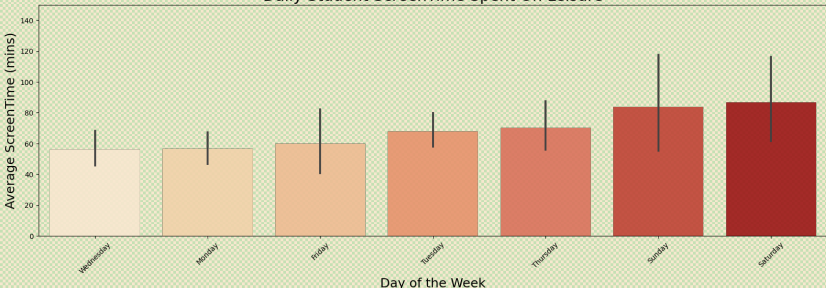

Student Enjoyment Based on Activity

A typical data science student would rather indulge in leisure, sleep or eating/drinking over housework or paid work any day!

Daily Student ScreenTime Spent On Leisure

Do they spend more of their screen time on work or leisure?

A typical data science student records an average screen time of 1.78 hours doing work versus 1.09 hours of screen time while doing leisurely pastimes!

Daily Student ScreenTime Spent Doing Work
